City Attorney Bonsteel explained that the amendment to Section 88 of the charter was intended to require proper materials and equipment in construction of buildings, that the State Housing Code has to

deal more particularly with ground area and light, and that zoning ordinances can be passed under authority of Act of Legislature and such ordinances may designate certain sections or districts for business, residences, detached houses, multiple dwellings and factory and industrial purposes. Expert survey may be necessary in order to select proper zoning districts for various purposes named.

#### Parks & Sanitary Committee

By Ald. Norris:

Whereas, the Scottwood Realty Company, a corporation has filed a petition with the city to vacate the Community Park so designated

on a plat known as the Scottwood First Addition, and

Whereas the said Scottwood Realty Company is now the owner of all the lots in said first addition, and

Whereas, the matter has received careful investigation and the said property is a very small tract of land adjacent to certain lots and entirely surrounded by them without either ingress or egress to the tract, and

Whereas, the property is valueless for park purposes to the city and would be of no benefit to the public generally, therefore

Be it resolved, that in consideration of the payment of one dollar and other valuable considerations by way of improvements etc., the city quit claim its interest in and to said property to the Scottwood Realty Company, being the owners of all the lots in said plat and further, that the Mayor and City Clerk be authorized to execute such quit claim deed when approved by the City Attorney.

To the Honorable Common

Council:

Gentlemen:

A common drinking cup is still being used at the Fire Department. This is not in accord with modern sanitary regulations.

I therefore recommend, for the protection and safety of all who may have occasion to drink water at this place, that a drinking fountain be installed in the Fire Department Building as soon as possible.

JOHN A. WESSINGER,

Health Officer.

Referred to Fire Committee and Fire commission.

May 24, 1922.

To the Honorable, the Common Council:

Gentlemen:

Arthur S. Lyon, Post Com.

Hi A. Sweet, Post Adjutant.

Welch Post, No. 137, G. A. R.  
By Ald. White:

Resolved, that the request of Welch Post No. 137, G. A. R. for an appropriation for Memorial Day (which appropriation is authorized by State law) be granted, and the City Clerk is hereby ordered to draw warrant on Contingent fund for \$35.00 in favor of Hi A. Sweet, Post Adjutant.

Ann Arbor, Mich. May 24, 1922  
To the Honorable, the City

Council:

Ann Arbor, Michigan,

Dear Sirs:

We have petitioned for curb and gutter on Washington Heights from Observatory Street to Glen Boulevard. The University have signified to you their willingness to pay their share of cost for such curb and gutter. The fact that so many petitions have been received that it would be impossible to comply with all of them and that the curb and gutter on Washington Heights would undoubtedly not be constructed by the City this year has been called to our attention. We expect by some time in October to have twenty-one houses completed and occupied on this Street. Unless curb and gutter can be built and the Street graveled, it will be impassable during the winter. Can we not make arrangements to have this work done, paying for it ourselves and have the City's portion refunded to us by the City next year?

Very truly yours, M. Osgood,  
Pres. and Gen. Mgr., Ann Arbor  
Asphalt Construction Co.

On motion of Ald. Lutz, matter was referred to Street Committee and City Attorney.

Your Sewer Committee, to whom was referred the estimate and report of the City Engineer, relative to the construction of lateral sewer in lateral sewer district No. 112, from Third Ward School to Seventh st., begs leave to report that we have had such estimate and report as well as resolution of Council under consideration and have made due inquiries relating thereto and have heard all persons desiring to be heard in the premises, and your committee is of the opinion that there is necessity for the construction of such lateral sewer in said district, and that special taxing or assessment district ought to be fixed by the Common Council upon and against which the construction of such sewer may be charged, street intersections excepted, pursuant to the ordinance in such case made and provided.

Your Committee further recommends that resolution fixing the boundaries of said district be prepared by the City Engineer and the Board of Public Works ordered to advertise for bids for the construction of said sewer.

Your Committee further recommends that a sanitary sewer be constructed on John st. from Fifth ave. to Division st. and that the City Engineer be instructed to prepare plans, specifications and estimate of cost for said sewer; and that the construction of said sewer is hereby deemed and declared to be a necessary public improvement.

### Railway Committee Report

Aug 7, 1922.

The Honorable Common Council,  
Ann Arbor, Mich.  
Gentlemen:

Your Railway committee presents the following report with regard to the local street car lines. At the last meeting of the Council a verbal report was made as to the progress of negotiations with the Detroit, Jackson & Chicago Railway. It had been hoped that the company might furnish figures which would show clearly the cost of doing business in Ann Arbor, and allow the council to judge to what extent the company might properly be asked to make further expenditures for the paving and maintenance of its tracks. The company has submitted an analysis of cost, but its methods of accounting are such that the costs given are for many items "allocated" in stead of actual cost. These allocated costs are, as we understand, practically the average costs of all their city lines, including those in Detroit, Flint, as well as Ann Arbor. It is manifest that such figures can have little value when applied directly to Ann Arbor conditions. The company is also unable to tell us the number of interurban passengers carried through Ann Arbor, so that we can form no estimating costs on the Packard-Maintimate of the proportion of operation West Huron lines which should be charged to the interurban traffic and to the local traffic. The situation is, therefore, not all that could be desired.

Mr. E. J. Burdick, General Man-

ager of the Detroit, Jackson and Chicago Railway Co., has today submitted the following proposition.

Mr. A. H. White,  
Chairman Railway Committee,  
Common Council of the City of  
Ann Arbor, Ann Arbor, Michigan  
Dear Sir:

Understanding that your committee has before it at the present time for consideration and action the matter of the street railway conditions and service in the City of Ann Arbor. Further understanding that it is the desire of the City of Ann Arbor that the street railway trackage and equipment be maintained and the furnishing of service thereby be continued, this is intended to state in brief and general outline the terms and conditions upon which the present owners of the street railway trackage and equipment are willing to maintain the same and continue the furnishing of service thereby, viz.:

1. The company to reconstruct the tracks on Packard-av. at or near Granger-st. to the new City Limits to be reconstructed and be paved between the tracks.

2. The company to pave between both tracks of the switch on Hill-st., between Forest-av. and Church-st., and also between the tracks at the intersection of Hill-st. and Lincoln-av. and at the intersection of Hill-st. and Washtenaw-av.

3. The company to pave on Detroit-st. between the tracks for the distance between the lot lines of Division-st. extended and the distance between the lot lines of Kingsley-st. extended.

4. The tracks not now paved or not to be paved as above outlined to be maintained in a similar manner to the tracks on Woodward-av. in the City of Highland Park and on Grand River-av. beyond the old City Limits in the City of Detroit as the same are at present.

5. The Company to operate busses from the new hospital, when put in operation, to the nearest convenient point for making connection with street cars or such other routes as may be hereafter arranged by mutual agreement.

6. The city to grant to the company a day-to-day right to maintain the trackage on the streets where the same now exists. Such

day-to-day right to be terminable by the city upon sixty days' notice to the company.

7. The rate of fare under such day-to-day right shall be determined on the basis provided in the Glaspie Act enacted by the last legislature. If the city and the company cannot agree on the rate of fare the same to be referred to the Michigan Public Utilities Commission for determination. In determining the rate of fare the interurban cars to pay a proper charge for the use of the tracks and for any power used from any power station which may be a part of the city system.

8. If the city shall at any time determine to engage in the ownership and operation of street railways, the track and equipment then in the streets shall be purchased by the City at the then fair value of the physical property thereof to be agreed upon between the City and the Company or failing such agreement to be determined by the Michigan Public Utilities Commission.

While the foremost outline is very brief and general and would require the working out of many details, it is believed to fairly cover the situation and offer the proper basis from which to draft an ordinance defining the rights and obligations of the parties and the terms and conditions upon which service shall be continued to be rendered to the public in the City of Ann Arbor.

Very respectfully,

Detroit, Jackson & Chicago Railway.

By E. J. Burdick,

Your committee presents this proposition for your consideration and recommends that it be refer-

red back to the committee.

### Ordinance Committee

Ald. Haarer presented the following ordinance, which was given its third reading:

An ordinance regulating public dances in the city of Ann Arbor. The Common Council of the city of Ann Arbor ordain:

Section 1. The term "Public Dance" as used in this ordinance shall be held to mean any dance where any of the expenses connected with such dance are borne either directly or indirectly by the people attending such dance; or where the invitation to attend such dance is not issued in person or by written invitation by the person or persons giving same; or any dance to which admission may be had by the payment of a fee or by the purchase, possession or presentation of a ticket or token obtained for money or any valuable thing; or in which a charge is made for caring for clothing or other property; or any dance to which the public generally may obtain admission with or without the payment of a fee. Provisions of this ordinance shall not apply to private dances given by families in their homes, or by any legally organized fraternal society or other organization, organized for other objects and purposes other than dancing, and where the public is not admitted.

Sec. 2. It shall be unlawful to hold any public dance or to give instruction in dancing for hire in any hall, academy or place within the city limits of the City of Ann Arbor until the hall, academy or place in which the same may be held shall have first been duly licensed for such purposes as hereinafter provided. The owner of any such hall, academy or place, shall apply to the City Clerk for a license for said hall, academy or place, which application shall be on a form to be furnished by the City Clerk and no such license shall be granted until the application shall be approved by the Mayor. Upon the approval of said application by the Mayor, such applicant shall

pay to the City Clerk an annual license fee of five (\$5.00) dollars. Any license issued under this ordinance shall expire on the first Monday of June following the issuance thereof, unless otherwise limited or revoked.

Upon the approval of said application by the City Mayor, the City Clerk shall issue a license as hereinbefore provided and the owner, lessee or person, firm or corporation in charge of said hall, academy or place, shall post said license in a conspicuous place in said hall, academy or place.

Section 3. No license for a public dance hall, academy or place shall be issued until the City Mayor or someone duly authorized by the City Mayor shall investigate said hall, academy or place and determine that such hall, academy or place complies with and conforms to the laws of the State of Michigan and the ordinances and health and fire regulations of the City of Ann Arbor and that said hall, academy or place is properly lighted and ventilated, supplied with adequate toilet conveniences for each sex and is a safe, sanitary and proper place for the purpose for which it is to be used.

Section 4. The license of any public dance hall may be suspended by the City Mayor or revoked by the Common Council for disorderly or immoral conduct therein or for violation of any of the provisions of this ordinance or any other ordinance of the City of Ann Arbor. Any public dance hall license under the provisions of this ordinance may be entered at any time by the City Mayor or any member of the Police Department of the City of Ann Arbor, or any person duly authorized by the City Mayor for that purpose. The City Mayor or any member of the Police Department of the City of Ann Arbor may cause any public dance to be discontinued and may cause the place where said dance is being held to be vacated during the progress of a public dance for any reason for which a license may be suspended or revoked as herein provided. In case any license granted hereunder shall be so suspended or revoked at least six (6) months shall elapse before another license shall be issued for holding a public dance in the same place.

Section 5. It shall be unlawful for any person, persons, firm or corporation, to hold any public dance in any place in the City of Ann Arbor without having first obtained a permit therefor from the City Clerk for a stated time, and no person, society or corporation, failing to enforce at such dances the requirements laid by statute or ordinance upon public dance halls, shall be granted a second permit within six months from the date of such failure and any failure or neglect on the part of the manager or proprietor or person in charge, of any hall used for public dances, to secure and require the proper permit for such dance, shall subject each person, firm or corporation, to the penalty provided for a violation of this ordinance.

Upon application being filed with the City Clerk for the permit in this section specified, the City Clerk shall, when the application shall be approved by the City Mayor, issue the permit to the applicant and the applicant shall pay the City Clerk a permit fee of one (\$1.00) dollar for each permit.

Section 6. All public dance halls, academies or places in which public dances shall be held shall be closed on or before the hour of one o'clock a. m. Except when special permission for extension of the time may be granted by the City Mayor. On Saturdays said public dance shall close at 12 o'clock midnight.

Section 7. It shall be unlawful to knowingly permit any person under sixteen years of age to attend or remain at any public dance unless each person be accompanied by the parent or guardian of such person or by a responsible escort approved by parent or guardian. It shall be unlawful for any person to represent himself or herself to be sixteen years of age in order to attend or remain at any public dance when such person is less than sixteen years of age, and it shall be unlawful for any person to falsely represent himself or herself to be a parent or legal guardian of any person in order that such person may attend or remain in any public dance.

Section 8. Whenever any public dance is conducted in the City of Ann Arbor the management of said dance shall provide a capable floorman and a chaperone who

shall be a responsible woman and who shall be in the dance hall at all times and who shall see that no disorderly, familiar or objectionable conduct or dancing is allowed.

Section 9. Whenever any public dance is being conducted in any dance hall in the City of Ann Arbor, the entire dance hall and all adjoining rooms opening into said hall must be well lighted at all times.

Section 10. It shall be unlawful for any known prostitute, male or female procurer or vagrant to be present at any public dance or at any public ball room.

Section 11. It shall be unlawful for any person, persons, firm or corporation conducting or having in charge any public dances in the City of Ann Arbor, or any person participating in said dances, to sell, give away, or drink any intoxicating liquor in or about any dance hall.

Section 12. It shall be unlawful for any person under the influence of liquor or drugs to participate in or be admitted to or allowed to remain in any dance hall.

Section 13. A regular admission fee shall be charged to each individual entering the public dance hall. No free admissions to persons of either sex shall be allowed.

Section 14. Any person, persons, firm or corporation violating any of the provisions of this ordinance shall, upon conviction thereof in any court of competent jurisdiction, be punished by a fine of not to exceed one hundred (\$100) Dollars or by imprisonment in the county jail of Washtenaw county for a term not exceeding ninety (90) days, or by both such fine and imprisonment in the discretion of the court.

Section 15. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

#### Railway Committee Report

To the Honorable, the Common Council,

Gentlemen:

Your Railway Committee begs leave to report that after a number of conferences with the officials of the Detroit, Jackson and Chicago Railway a resolution was drafted

which your Committee recommends for your approval. This agreement was accepted verbally by the officials of the D. J. & C. Railway at a conference in Detroit on September 25, at which the City Attorney and Professor H. E. Riggs represented the City and at which Mr. Martin Cavanaugh was present for the D. J. & C.

Your Committee recommends that the Mayor and City Clerk be authorized to approve the following Resolution on behalf of the City, provided that the Detroit, Jackson and Chicago Railway shall have first approved the same and shall present to the Mayor a properly executed agreement to this effect prior to noon of October 10, 1922.

**A RESOLUTION DEFINING THE TERMS AND CONDITIONS UPON WHICH THE STREET RAILWAYS ARE TO BE MAINTAINED AND OPERATED IN THE CITY OF ANN ARBOR**

Be it and it hereby is resolved by the Common Council of the City of Ann Arbor as follows:

1.—Consent, permission and authority to maintain all street railway tracks and overhead and other equipment now existing in the streets of the city of Ann Arbor and to operate the same as a street railway system including the operation of the interurban cars on the streets where now operated is hereby granted to the Detroit, Jackson and Chicago Railway, a corporation organized and existing under and by virtue of the laws of the State of Michigan and known to said laws as a street railway company hereinafter referred to as the Company, its successors and assigns. The time of operation and speed of the cars shall be regulated by the Common Council of the City of Ann Arbor.

2.—The Company shall maintain the pavement on the portions of all streets on which pavement has been heretofore maintained by the street railway and in addition.

(a) Shall reconstruct the tracks on Packard Street from, at or near Granger Avenue easterly to the city limits and pave between said tracks and for a distance of twelve inches outside of each rail.

(b) Shall pave Hill Street from East University Avenue to Washtenaw Avenue between the rails and twelve inches outside of each rail including the switches.

(c) Shall pave on Detroit Street between the rails and twelve inches

outside each rail for the distance between the lot lines of Division Street extended and the distance between the lot lines of Kingsley Street extended and the distance between the lot lines of Fifth Avenue extended.

All pavements to be maintained by the Company shall be kept and maintained in the same state of repair as the pavement laid and maintained adjacent thereto by the City. All tracks not so required to be paved by the Company and not paved by the City shall be maintained at grade by the Company with crushed stone on paved streets and either crushed stone or pebble gravel on unpaved streets substantially even with the top surface of the rail.

3.—City cars shall be operated with such frequency and of such capacity as may be requisite for reasonably adequate service. The Company shall also maintain and operate busses from the new University hospital, from the time such hospital shall be opened and put in operation, to the nearest convenient point for making connection with the cars of said street railway or such other routes as may be hereafter arranged by mutual agreement. Such cars and busses shall be maintained, heated and ventilated in such manner as may be reasonably necessary for the safety, health and convenience of the public using same. The busses shall be deemed to be a part of the street railway system and so treated for all purposes hereof.

4.—The rates of fare for the city service shall be such as are sufficient and not more than sufficient for the reasonable requirements of said city system to meet the operating costs, taxes, property rental and return upon fair value. In determining such reasonable requirements, a reasonable car mileage charge for the use of such tracks shall be made against the interurban cars operated in the city of Ann Arbor. The rate of fare on the busses shall be ten cents. Such fare shall include a transfer to the city cars. Transfers shall be given from the city cars to the busses upon additional payment of the difference between the regular fare and the bus fare.

5.—If the city of Ann Arbor shall, at any time, pursuant to lawful authority, determine to engage in the ownership and operation of street railways, the tracks and overhead and other equipment then in the streets and the cars and other

equipment then used in the operation of the city service on said tracks shall be purchased by the city of Ann Arbor at the then fair value of such physical property.

6.—The City and the Company shall agree from time to time, upon the rates of fare upon the basis aforesaid, and in the event of purchase upon the fair value; but if at any time or times the City and the Company shall fail to agree upon the rates of fare, or upon the fair value, the same shall be determined by arbitration. The basis of "Fair value" in the rates of fare to be used in such arbitration shall be the valuation made by the Michigan Public Utilities Commission, such valuation being brought to the date of the arbitration. The reference to the Michigan Public Utilities Commission shall be deemed to include the state authority at the time having the regulation of street or interurban railways by whatsoever name the same may at said time be known and howsoever constituted.

7.—No term rights are granted by the City or acquired by the Company hereunder, but the relations between the City and the Company hereunder are solely from day to day and may be terminated by the City at any time upon sixty days notice to the Company by Resolution of the legislative authority of the City.

This resolution is approved by the Street Railway Committee for presentation to the Council.

Alfred H. White, Chairman.  
Geo. Spathelf,  
W. G. Johnson.

### Officers' Reports

#### City Attorney's Report

City Attorney's Office,

Ann Arbor, Mich., Sept. 30, 1922.  
To the Honorable, the Common Council of the City of Ann Arbor:

Pursuant to the terms of a resolution presented at a meeting of the Common Council, September 18, 1922, asking for a written opinion regarding the status of encroachment of store fronts, show cases, displays, etc. over the property line. I herewith submit my opinion.

Section 1 of an ordinance entitled,

"An Ordinance relative to the Use of Streets and Other Public places," passed by the Common Council November 4, 1895; approved November 5, 1895; amended June 5, 1899; amended October 20, 1913; amended September 15, 1919; provides that, whenever any sidewalk shall be obstructed or encumbered by anything, it shall be the duty of the owner or occupant of the premises adjacent to and abutting the said sidewalk to move said encumbrance or obstruction or cause the same to be removed.

Section 5 provides that it shall be the duty of the Board of Public Works to take cognizance of the provisions of this ordinance relative to the encumbrance of sidewalks, streets and alleys.

Section 7 of the ordinance, as amended September 15, 1919, does not permit the use of the sidewalks for any purpose or for display of merchandise.

It means, therefore, that in accordance with the terms of the ordinance the Board of Public Works shall enforce the violation thereof.

Roscoe O. Bonisteel,  
City Attorney.

Moved by Ald. Johnson, that copy of City Attorney's opinion be presented to each member of Board of Public Works.

Adopted.

By Ald. Freeman:

Whereas, Frederick Olmstead of Olmstead Brothers, Brookline, Mass., stated it as his opinion to a committee of the city that the City of Ann Arbor should employ a zoning expert to advise the city as to the physical feature of a zoning scheme and work incident thereto.

Therefore, be it resolved that the ordinance committee communicate with such an expert or experts and ascertain the cost of such employment and report to the Council at a later meeting.

Adopted.

By Ald. Norris:

Resolved, that the Mayor and City Clerk are hereby authorized to execute lateral sewer bonds for lateral sewer districts Nos. 114 to 119, inclusive, with interest at five per cent per annum, payable annually.

Adopted by following vote:

Yeas: Ald. Johnson, Haarer, Graf, Henderson, Lucas, Groves, Markey.

Nov. 20, 1922.

To the Honorable, the Common Council,

City of Ann Arbor,

Gentlemen:

I wish to submit to you some of the facts pertaining to the operation of our Police Department.

Some years ago, your Honorable Body passed a resolution limiting the number of the police force to fourteen. At the present time, we are operating with that number and I believe we will not need to increase that number until next spring, when the traffic officers are put out on the streets again, then it will probably be necessary to add one more patrolman. For the

past few years, the Acting Chief of Police has been looking after the Chief of Police and Sergeants duties and as a result, he has had to spend too much time looking after details and not as much time looking after the operation of the Department as he should.

I am trying to overcome this difficulty by giving him the proper help in the office and I believe this can be accomplished during the winter months but in the spring, we will need the extra man as mentioned above. Therefore, I recommend that your Honorable Body consider the advisability of increasing this number from fourteen to eighteen, not with the idea of appointing more men at the present time but to be in a position so that we can appoint more men if necessary without waiting the necessary council action.

Yours truly,

Geo. E. Lewis, Mayor.

Moved by Ald. Johnson, that Mayor be granted authority to increase the regular police force from fourteen members to eighteen members at any time he deems it necessary.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Groves, Markey, Moore, Spathelf, White, Freeman, Lutz, Norris, Pres. Sugden, 14. Nays, none.

Nov. 20, 1922.

To the Honorable, the Common Council, City of Ann Arbor,

Gentlemen:

According to our Charter, the Police Department is entirely under the Mayor. As a result of this, the Police Department can very easily be used for political purposes if a Mayor so desires. Everytime there is a change in the office of Mayor, the men on your Police Department are rather uneasy in not knowing whether they are going to maintain their job or not. This arrangement leads to very poor efficiency on the part of the police force.

I realize that we do not wish to form any more Boards or Commissions, therefore, I recommend that your Honorable body consider the advisability of placing the Police Department and the Fire Department under the same commission.

Yours truly,

Geo. E. Lewis, Mayor.

Moved by Ald. Lutz, that matter

be referred to Ordinance Committee with instructions to prepare amendment to charter in accordance with recommendations from the Mayor.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Groves, Markey, Moore, Spathelf, White, Freeman, Lutz, Norr's, Pres. Sugden, 14. Nays none.

Nov. 20, 1922.

To the Honorable the Common Council, City of Ann Arbor,

Gentlemen:

I would like to call your attention to the traffic conditions on Huron and Liberty streets.

These streets are only thirty feet wide from curb to curb. The conditions on Huron street are worse than on Liberty st. due to certain business places on that street and as a result, a greater amount of parking there than on the other.

However, I would recommend that the matter of widening Huron Street and possibly Liberty be investigated and if possible, enough money put in the budget for next year to do at least part of this work.

Yours truly,

Geo. E. Lewis, Mayor.

Referred to Street committee and Board of Public Works on motion of Ald. Johnson.

#### From Board of Public Works

Sealed proposals received Nov. 6, 1922, for construction of Henry st. etc., lateral sewer were as follows: Wm. Eddy & Son, \$9,102.50; and Ray D. Baker, \$8,100.00 which bid was conditional on being awarded contract for compressor house, pit and ejector equipment.

Moved by Mr. Atwell that all bids for construction of Henry st. etc., lateral sewer be rejected and work be carried out under direction of City Engineer and Street Commissioner.

(Council Action)

Moved by Ald. Lutz, that action of Board be concurred in.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Groves, Markey, Moore, Spathelf, White, Freeman, Lutz, Norr's, Pres. Sugden, 14. Nays, none.

Nov. 20, 1922

To the Honorable Common Council, City of Ann Arbor,

Will you please advise us that an audit of our books at the close of the year, by the Michigan Pub-

lic Utilities Commission will be satisfactory so that we may make arrangement at this time in order that the work may be done promptly?

Yours truly,

Henry W. Douglas, Manager.

Washtenaw Gas Co.

Moved by Ald. White, that Council approve employment of Michigan Public Utilities Commission to audit books of Washtenaw Gas Co. Adopted by unanimous vote.

#### **Report of City Engineer on Petitions For Gasoline Filling Stations**

To the Honorable Common Council  
Ann Arbor, Michigan.

Gentlemen.

In re the petition of the Sinclair Refining Co. for permission to erect a gasoline filling station at the northeast corner of Main and Packard streets, on the so called Dobson property and at the south point of Packard and State streets known as the Mullson property.

In regard to the property at the northeast corner of S. Main street and Packard street I wish to make the following report. I have made a canvass of the district and find that there are 13 places of business and 25 residences in the district. The ordinance reads that the consent of the property owners is not necessary if less than 75 per cent of the buildings in the district are exclusively residence or educational buildings. I have counted the Community House as a business place. There is a total of 38 buildings in the district; 75 per cent of 38 is 28 1-2, it would therefore be necessary that at least 28 of the buildings in the district be residences or educational buildings in order to make it a residence district and according to my count there are only 25. I am giving this detailed account in order that your Honorable Body may have all the facts before issuing or refusing a permit.

In regard to the property at the southwest corner of State-st. and Packard st., known as the Mullison property, I beg leave to make the following report: I find that in this district there are 49 residences and 13 business properties and 3 properties on which there are both business and residences. This makes a total of 65 properties. In as much as the ordinance states that the district in order to be a residence district must contain at least 75 per cent of residence properties, the properties to

be used exclusively for residence or educational purposes there would be 49 residences and 16 business properties, making a total of 65 properties, 75 per cent of which is 48 3-4 properties necessary to make a residence district. There being 49 residences the district comes under the head of a residence district.

I have tried to count each building as one property. In cases where there were more than one business property in the same building I have counted it as one business property, also I did not count as separate business properties business places on the second floor of buildings.

Respectfully submitted,

GEO. H. SANDENBURGH,  
City Engineer.

Moved by Ald. Lutz, that request of Sinclair Refining Company for permit to locate an oil filling station at corner of Packard and State sts. be denied.

Adopted by the following vote: Yeas, Ald. Johnson, Haarer, Graf, Lucas, Groves, Markey, Moore, Spathelf, White, Freeman, Lutz, Norris, Pres. Sugden, 13. Nays, none.

Remainder of report referred to City Engineer and City Attorney.

Resolution by Haarer:

Resolved, that Sections 61, 62, 63, 83, paragraph entitled, "First," under Section 88; Sections 107, 108, 109, 110, 111 of the Charter of the City of Ann Arbor, be, and the same are hereby amended to read as follows:

Section 61. There shall be a Board of Police Commissioners in said city which shall consist of three good and competent men who are electors therein. The full term of a member shall be three years, but the members first appointed shall be subject to classification in such a manner that one term shall expire in each year. The said Commission shall make a monthly report of the work of the Commission to the Common Council, which shall contain a detailed statement of the arrests, the amount of the fines and costs collected, and such other information as the Common Coun-

cil shall prescribe. Any member of the commission may be removed by a three-fourths vote of the members-elect of the Common Council for malfeasance of duties of the office or for any other cause wherein elective or appointive officers may be removed under the terms of this charter or state law, for failure to perform their duties. The members of the said Board of Police Commissioners shall receive such compensation as the Common Council may allow.

The Board of Police Commissioners shall have and possess all the powers given by the charter and ordinances of the city and other governmental laws, to establish and enforce such police regulations as they shall deem necessary to prevent vice and immorality, to preserve public peace and good order, to prevent and quell riots and disturbances and disorderly assemblages, to prevent the violation of the Sabbath and disturbances of any religious congregations or any other public meetings assembled for any lawful purpose, and shall possess such other powers as shall be incident to the public welfare and usually conferred upon such commissions.

The Board of Police Commissioners shall appoint a city marshal as Chief of Police of the city, who shall be subject to the direction of the said Board of Police Commissioners. It shall be his duty to see that all the ordinances and regulations of the Common Council, made for the preservation of quiet and good order, and for the safety and protection of the inhabitants of the city, are promptly enforced, and when he shall know or learn of the violation of any ordinance of the city or penal statute of the state, it shall be his duty to enter complaint before one of the justices of the peace of the said city and to do whatever shall be necessary to bring the offender to justice. He shall have the same power to serve and execute all process issued by any justice of the peace of said city in behalf of said city, or of the people of the state, for offences committed within said city as sheriffs or constables have by law to serve and execute similar process, and shall suppress all riots, disturbances and breaches of

the peace, and for that purpose may command the aid of all citizens in the performance of such duty. He shall arrest all disorderly persons in the city and pursue and arrest any person fleeing from justice in any part of the state. All money collected or received by the Chief of Police, for fines, fees or for any services performed by him in any official capacity, unless otherwise directed by this act, shall be paid into the city treasury during the same month when received, and the treasurer's receipt therefor shall be filed with the City Clerk.

Section 63. The Chief of Police shall not leave the city without the consent of the Board of Police Commissioners, except in pursuit of fugitives from justice or for the arrest of persons charged with a violation of the city ordinances. In the absence of the Chief of Police or his inability to serve, the Board of Police Commissioners may designate any policeman or officer to perform his duties.

Section 83. The Chief of Police or any policeman or other police officer appointed to office by the Board of Police Commissioners, may be suspended or removed by the said Board of Police Commissioners. Any person so suspended or removed shall have the right to a hearing before the said Board of Police Commissioners at a regular meeting of said board, provided that application therefor shall be made within ten days after said suspension or removal by the person so suspended or removed; and

the said Board of Police Commissioners shall present to the Common Council at its next regular meeting, reasons for the suspension or removal, in writing, which shall become a part of the records of such meeting.

Section 88. Paragraph thereunder entitled "First."

Section 88. The Common Council, in addition to the powers and duties specially conferred upon them by this act, shall have the management and control of the finances, rights, interests, buildings and all property, real and personal, belonging to the city, and make such orders and by-laws relating to the same as they shall deem proper and necessary; and, further, they shall have power, within said city, to enact, make, continue, modify, establish, amend and repeal such ordinances, by-laws and regulations as they may deem desirable, within said city, for the following purposes:

In the matter of Hartwig H. Herbst  
vs Res. Garger and Herbert  
W. Crippen

This is the matter regarding the taxation on property deeded by Hartwig H. Herbst to the University of Michigan wherein the said Hartwig H. Herbst received some income from the property under certain stipulations and conditions contained in the deed and agree-

ment made with the University.

This property was assessed in 1920 against the University and was afterwards set aside for the reason that the fee to the property was in the University of Michigan. In 1921 it was assessed as personal property and in 1922 as life estate. An action was started by Mr. Herbst in chancery to restrain collection of the tax for 1921, which case has been settled and the assessment on the property which Mr. Herbst is to pay a tax is as follows: 1920, on the basis of \$2 00 assessment; 1921 \$3000 assessment; 1922 \$4,000 assessment and \$4 000 assessment each and every year thereafter for such time as Mr. Herbst shall receive the rents from the property deeded to the University.

This matter is submitted to you for your consideration and approval.

R. O. Bonisteel, City Attorney  
A. D. Groves, Chairman of Finance Committee, Robert Norris, Mark B. Sugden, Finance Committee,

Wilmo's Addition to the City of Ann Arbor; also, the east forty (40) feet of Lot numbered thirty one (31) in said addition; also, a parcel of land off the northwest corner of lot four (4) in Ward's Subdivision according to the recorded plat of said C. T. Wilmo's Addition and Ward's Subdivision.

And whereas, said Hartwig H. Herbst is receiving the rents and profits from said property, under certain stipulations and conditions between himself and the Regent of the University of Michigan.

Therefore, it is hereby agreed that the said Hartwig H. Herbst shall be assessed to pay taxes on the following assessment of the rate fixed for the years mentioned. For the year 1920, \$2,500; 1921, \$3,000; 1922 \$4,000, and \$4,000 for each year thereafter until he shall fail to receive the rents or profits from said property.

That the said taxes shall be paid to the City Treasurer on the foregoing described basis within the next fifteen days. A copy of this

agreement to be presented to the said City Treasurer of the City of Ann Arbor, Michigan and all assessments and proceedings against the said Hartwig H. Herbst on the rolls of the City Assessor and Treasurer's books as to said property, be declared void.

Hartwig H. Herbst, Roscoe O. Bonisteel, City Attorney.

To the Honorable Common Council,  
Ann Arbor, Michigan.

Gentlemen:

I beg to submit the following re-

port on the petition of the Sinclair Refining Co. to locate a gasoline filling station at the intersection of Jackson ave. and Dexter ave.

On examination of the number of signers signing the petition favoring the establishment of the gasoline filling station in the above mentioned property I find that they have secured the required number of signatures.

Respectfully submitted.

Geo. H. Sandenburgh,  
City Engineer.

Moved by Ald. Henderson, that petition be granted.

Motion lost by following vote: Yeas. Ald. Henderson, Groves, Moore, Spathelf, White, Norris, 6. Nays, Ald. Johnson, Haarer, Graf, Lucas, Freeman, Pres. Sugden, 6.

To the Honorable Common Council,  
Ann Arbor, Mich.

Gentlemen:

I beg leave to submit the following report on the petition of the Sinclair Refining Company for permission to install a gasoline filling station at the southwest corner of State and Packard streets.

After making a careful survey of the number of property owners in the district I find there is a total of 58. According to the petition as submitted to me I find that 40 property owners have given their consent to the establishment of a gasoline filling station on this property. The necessary number of signers to fulfill the requirements of the ordinance is 38. I therefore certify that the required number of consents have been secured.

Respectfully submitted.

Geo. H. Sandenburgh,  
City Engineer.

Moved by Ald. Norris, that this matter be laid over until next meeting and that a public hearing on same and on the petition to locate service station at Jackson and Dexter avenues be held at the call of President Sugden.

In re: The matter of petition of the Sinclair Refining Company for a permit to install oil filling station at the northeast corner of Main and Packard Streets.

The foregoing matter was referred to the City Engineer and the City

Attorney at the last meeting of the Council held January 15, 1923.

Inasmuch as the provisions of the ordinance require permits to be granted only in cases where 75 per cent of the buildings in the district are exclusively residential or educational, we find that this district is a business district and does not require the issuance of a permit for the installation of a gasoline filling station.

Geo. H. Sandenburgh, City Engineer  
R. O. Bonisteel, City Attorney.

No action taken.

It was reported that the Sinclair Refining Company proposed to deed to City a parcel of land at corner of Main and Packard sts. for street purpose and the matter was referred to City Attorney and City Engineer.

By Ald. Johnson:

Resolved that the present election commissioners, John T. Kenny, George H. Fischer and John Huss be re-appointed as election commissioners for the ensuing year.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Groves, Moore, Spat-helf, White, Freeman, Norris, Pres. Sugden 12. Nays, none.

By Ald. Haarer:

Resolved, that the Finance Committee be authorized to purchase within ten days a copying or reproducing machine and that hereafter the City Clerk shall have available in his office for each and every member of the Council a copy of every new or amended ordinance not later than the opening of Council meeting at which said ordinance is to be given its first reading, and

no ordinance shall be given its first reading unless presented by a member of ordinance committee to the City Clerk in ample time to permit the City Clerk to prepare the required number of copies.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Groves, Moore, Spat-helf, White, Freeman, Norris, Pres. Sugden, 12. Nays, none.

##### (Report on Encroachments.)

Mr. Hutzel presented the following:

To the Honorable, the Common Council.

Gentlemen:

Pursuant to report, which was handed into the Common Council Sept. 30, 1922, from the City Attorney, in reference to an ordinance relative to the use of streets and other public places, passed by the Common Council Nov. 4, 1895; approved Nov. 5, 1895; amended June 5, 1899; amended Oct. 20, 1913; and amended Sept. 15, 1919.

The following is the City Attorney's opinion as presented to the Council:

"It means therefor that in accordance with the terms of the Ordinance the Board of Public Works

shall enforce the violation thereof."

"Moved by Ald. Johnson, that a copy of the City Attorney's opinion be presented to each member of the Board of Public Works." All of this was probably executed. On the strength of this request, the Board of Public Works ordered the City Engineer to make or cause to be made a survey of our business streets to ascertain what encroachments of business blocks exists. We hereby attach an itemized report of the City Engineer's finding. From this report it seems that about 60 per cent of our business places are encroaching on our streets from a fraction of a foot to over three feet. Some of these buildings have been built upwards of from fifty to sixty years. The members of this Board realize that it is within their power to prevent any encroachments on new structures or repair work since the ordinance referred to was passed, but feel that enforcement of ordering old buildings back to the property line should be made by the Common Council direct, if at all.

Respectfully submitted, Board of Public Works.

Moved by Mr. Hutzel, that report be adopted and referred to Council.

Adopted by Board.

(Council action.)

Moved by Ald. Lutz, that report be placed on file. Adopted.

(From Board.)

Moved by Mr. Scott, that the Sewer Committee be requested to order all storm and lateral sewer construction so that the Board can advertise for bids by April 1st.

(Council action.)

Referred to Sewer Committee.

(From Board.)

City Engineer presented plans and specifications for pavements in Pavement District's Nos. 52, 53 and 54. Moved by Mr. Rehberg, that plans and specifications be approved and referred to Council.

(Council action.)

Referred to Street Committee.

##### Proposed Charter Amendments

##### Approved

City Clerk reported that the proposed charter amendments were re-submitted to the Governor as there was an omission on the printed copies approved by him

January 31, 1923, and that copy of amendments as passed by Council January 15, 1923, was approved by the Governor Feb. 16, 1923.

ALF. J. PAUL,

Street Commissioner.

the operating expenses of the department, to pay the interest on outstanding bonds with surplus left which has been used to retire the principal on bonds due this year, and making such extensions to the distribution system as have been required by the growth of the City.

The City during the past few years has had a rapid growth, with every prospect of the growth continuing. There has been an increase in the number of consumers of 357 during the year, or an increase of 68 per cent of the total customers, and 53 per cent more than the growth last year.

The amount of water pumped is 5.6 per cent more than the amount of water pumped in 1921, while the cost of operating the Department is 5.5 per cent less than in 1921.

Your Board of Water Commissioners have endeavored to meet the growth of the City by additions to the distribution system and also replaced the small wrought iron pipe mains in the streets that are to be paved. The elevated steel reservoir on Medallion Street has been sold and will be moved during the early spring. This reservoir has been out of service for three years, and with the large trunk mains connecting with the pumping stations in the different parts of the City, there is no need for this reservoir. There are still improvements to the Water Works Department that are in need of attention and will be taken care of as rapidly as can be, and these are a better warehouse work shop and storage facilities for the Department supplies and materials improvements to the Chubb Road reservoir and additional labor saving equipment for the construction department.

The work that has been accomplished by the Department during the last year is taken up under appropriate headings in the discussion following:

**WATER SUPPLY:** During the past year the No. 3 (Steele Farm) Pumping Station furnished 91 per cent of the total water used in the City. All of the water pumped into the water distribution system is artesian well water.

During the year the suit brought against the Water Department by the farmers for damages to their land in the vicinity of the No. 3

**Annual Report of Water Works Department**

TO THE HONORABLE, THE MAYOR AND COMMON COUNCIL OF THE CITY OF ANN ARBOR, MICHIGAN

Gentlemen—

The Board of Water Commissioners have the honor to present herewith the 9th Annual Report of the Water Works Department covering the fiscal year from February 1, 1922 to January 31, 1923.

The past year has been a very satisfactory one for the Ann Arbor Water Works Department. An adequate supply of artesian water has been furnished to meet all demands of the system with a sufficient reserve to meet the growth of the City for a number of years to come. The income from the water pumped has been sufficient to pay all

(Steere Farm) Pumping Station was heard in court, but the decision has not been made. There is still pending one suit between George Wilsey et al. owners of a farm in Pittsfield township, asking damages to the amount of \$718, claiming the operation of the No. 3 Pumping Station is drying up his pasture thereby injuring the water supply for his stock.

**PUMPING PLANTS:** No. 1 Pumping Station, located near the Barton Dam at the northwest corner of the city, has installed one 5,000,000 gallons per day motor driven pump and one 2,500,000 gallons per day steam pump. This plant is maintained solely as a reserve station for use in case of large fires or other serious emergencies that would overtax the other pumping stations. The plant is operated a short time each day to deliver the aeration water collected at this station, thereby keeping the reserve pumps in running condition.

**NO. 2 PUMPING STATION,** located on West Washington Street on the west side of the city contains an electrically driven pump of 2,000,000 gallons per day capacity and is used as an emergency supply.

**NO. 3 PUMPING STATION,** located about 3 miles south of the city on State Street at the so-called Steere farm has installed two motor driven pumps of 3,700,000 gallons per day capacity each. One of these pumps is held in reserve and it has not been found necessary to operate both pumps at the same time, one pump being able to supply all of the demand of the city during the summer months, which gives the heaviest demand on the system.

**DISTRIBUTION SYSTEM:** During the year the largest additions to the distribution mains were laid since the beginning of operation of the plant. In other years there has been more actual feet of water main laid but most of these other quantities were trunk line mains. During the past year 14,563 feet of 6-inch distribution main were laid and 15 new fire hydrants installed. This large amount of distribution main installed was made possible by the purchase of a trenching machine so that it was not necessary to depend upon labor to excavate the trenches for the pipe.

The large trunk line mains have equalized the pressure so that there is satisfactory pressure in all parts of the City.

**METERS:** All customers taking water from the Water Works System are metered. The water used for flush tanks of the sewer system and that used for fire fighting purposes is not metered. The per capita consumption of water ranges from 78.5 gallons per inhabitant per day to a maximum of 137 gallons per inhabitant per day during the summer period. The population of Ann Arbor is very hard to determine due to the fluctuation of the population counted by the University. The population assumed for the past year probably errs in being small rather than being over-estimated. This makes the per capita consumption of water probably err in being larger than what it actually is.

The rates now charged for water, your Commission believe to be fair and very satisfactory. The revenue derived is sufficient to pay all the expenses of the Department the interest on the bonds, set up a depreciation reserve, and during the last year to pay the principal of the bonds that were due, with a surplus used in making extensions to the distribution system. A smaller rate would require bonding to raise money for extensions and to retire the bonds that are due, and a higher rate is not required unless unforeseen contingencies would necessitate an increased revenue to meet the expense of the Department.

**FINANCIAL:** The total revenues from operations of the Department during the past fiscal year amount to \$134,264.01. This is a gain of 7.2 per cent over the income of last year. During this period the cost of the operation and maintenance of the Department decreased 5.5 per cent. The total capital expenditures added to the Water Works System amounted to \$47,872.36, of which \$36,186.46 was from earnings and the balance of \$11,685.90 from bonds. There remains on hand \$28,800.37 unexpended of the amount received from bonds issued for the construction of the No. 3 Pumping station and for the purchase of water rights at the station. A complete summary of the financial operation is shown in the following table.

To the Board of Public Works,  
Ann Arbor, Michigan.  
Gentlemen:

We wish to make the following  
report on the several ways of fin-  
ancing the Allen's Creek storm  
sewer:

1. A general bond issue on the  
city at large.

2. A bond issue and the estab-  
lishing of an assessment district.  
A certain part of the cost to be as-  
sessed against all property in the  
district and the balance on the city  
at large.

3. A certain portion of the pro-  
ject could be built each year and  
the money raised in the general  
tax for that year.

4 The project could be con-  
structed as a county drain under  
the direction of the County Drain  
Commissioner. By this method  
ten (10) year bonds may be issued  
and an assessment district created.  
A certain portion of the cost will  
be assessed against the assessment  
district and the balance against  
the city at large. This method re-  
lieves the city of bonding on a  
bond issue as the County Dra'n  
Commissioner has power to issue

bonds against the district without  
recourse to an election.

Considering the fact that Allen  
Creek drains considerable territory  
outside of the city and is the main  
drain of such territory it would  
seem that a county drain would be  
desirable and satisfactory to the  
city and to its citizens as well as  
all property owners in the terri-  
tory. This method would be equit-  
able and fair to all concerned and  
after all due consideration we re-  
commend that Allen's Creek be con-  
structed as a county drain.

H. H. Atwell, Geo. H. Sanden-  
burgh, Roscoe O. Bonisteel.

Moved by Mr. Rehberg, that re-  
port be accepted and recommenda-  
tion adopted and same be referred  
to Council.

(Council action).

Referred to Sewer Committee.

### Mayor's Call

Ann Arbor, Mich., March 28, 1923.  
Isaac G. Reynolds, City Clerk.

Dear Sir:

You will call a special meeting of the Common Council to be held at the Council Chamber March 29, 1923, at 7:30 o'clock p. m. for the following purposes:

To receive a communication from W. G. Cowell, et al, relative to House Bill No. 271, which bill proposes to tax municipally owned property.

To receive from the Board of Public Works recommendations relative to awarding contracts for construction of pavements in pavement Districts Nos. 52, 53 and 54 or any other recommendation from said Board relative to said pavements.

To consider proposed charter amendments which will be submitted to electors on April 2, 1923.

And to take such action on the above mentioned matters as the Common Council shall deem advisable.

Yours very truly

Geo. E. Lewis, Mayor.

Ordered entered in minutes.

Communication from W. G. Cowell, et al relative House Bill No. 271, and following memorial received:

To The Legislature of Michigan.

The municipalities of the State vigorously protest against the proposed taxation of their properties used for supplying their citizens with light, heat, power, water and other necessities.

They represent that such taxation is contrary to the time-honored principles of American Government, and of the Common Law upon which our jurisprudence is based. It is an undue burden on a useful public service, tends to curtail the employment of modern conveniences in smaller communities and among the poorer classes, and unless accompanied by taxation of

sult in an unequal and unjust distribution of the tax burden.

We urge that House Bill No. 271 to amend the tax exemption statute so as to exclude municipally owned property from such exemption be defeated.

Enter Ald. Norris.

Moved by Ald. Henderson that Council endorse and adopts memorial and authorizes the City Clerk to certify copies to W. G. Cowell, and to the Senator and Representative from this district.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Markey, Moore, Spathelf, White, Freeman, Lutz, Norris, 12. Nays, none.

City Engineer informed Council that on account of the large number of combination of bids received for construction of pavements it was impossible to present tabulation of bids to Board of Public Works in time to take action, before this special meeting.

City Clerk presented budget which will be submitted to new council and asked permission to publish same so that the electors may know the approximate amount which will be raised in the various funds, and requested that Mayor Lewis, Ald. Norris and City Attorney prepare statement relative thereto.

Moved by Ald. Norris that the City Clerk's request be granted and that he be authorized to publish budget for the ensuing year, which he proposes to submit, with complete explanation of same.

Adopted by following vote: Yeas, Ald. Johnson, Haarer, Graf, Henderson, Lucas, Markey, Moore, Spathelf, White, Freeman, Lutz, Norris, 12. Nays, none.

By Ald. Johnson:

Resolved, that it be the sense of this Council that if the police Commission is created that it shall serve without pay and consequently will not increase taxation by the creation of such commission.

#### ROSS GRANGER

City Treasurer.

Reports of City Treasurer, Clerk and Acting Marshal received and ordered to take usual course.

#### Report of Engineer on Filling Station.

To the Honorable Common Council,  
 Ann Arbor, Mich.:

Gentlemen: On March 5, 1923, I made a report to your honorable body stating that the petition of the Sinclair Refining Company for locating a gasoline filling station at the southeast corner of State-st. and Packard-st. did not contain sufficient signatures to comply with the city ordinance. This report was accepted and placed on file.

On March 19, 1923, the Sinclair Refining Company filed a supplementary petition containing the names of additional property own-

ers. This supplementary petition was referred to me to report on at the next meeting of the Council. I therefore beg leave to report that the signatures on the supplementary petition added to the signatures on the original petition give a sufficient number of signatures to comply with the ordinance.

Yours very truly,  
 Geo. H. Sandenburgh,  
 City Engineer.

Moved by Ald. Henderson, that petition of Sinclair Refining Company to establish service station at corner of Packard and State-sts. be granted.

Defeated by following vote: Yeas, Ald. Henderson, Markey, Moore, Spathelf, 4. Nays, Ald. Johnson, Graf, Lucas, Groves, White, Freeman, Lutz, Norris, 8.

Moved by Ald. White, that request of City Clerk be granted.

Adopted by following vote: Yeas, Ald. Johnson, Graf, Henderson, Lucas, Groves, Mark y, Moore, Spathelf, White, Freeman, Lutz, Norris, 12. Nays, none.
